Do I have Trapped Emotions?

Do you ever feel that you are struggling under the weight of something that you can't quite put your finger on?

Perhaps your life is not turning out how you wanted it to. You may wish that certain events in your past had never occurred. You may even have an uneasy feeling that your present is somehow being held hostage by your past in some vague and indefinable way.

People often sense that they are having emotional issues, but struggle to overcome what they are feeling. The feelings that seem to be in their way are often due to their trapped emotions.

People are usually amazed to find out that their emotional baggage often consists of discrete energies that became trapped during emotional events they experienced in their past. They are even more amazed to see how easily these energies can be found and removed and by how different they feel when they are freed from them.

What is the Emotion Code?

The Emotion Code is the simplest way to get rid of your emotional baggage, helping you feel freer, happier, and healthier.

The technique was created and refined by a chiropractor, Dr. Bradley Nelson, who realized that his patients' aches and pains were more than just physically based - they were caused by negative energies that became trapped in the body during intense emotional events. Because the body is actually made up of pure energy, the negative energy of these "trapped emotions" can exert a damaging force on the body, which worsens over time. Trapped Emotions cause pain, self-sabotage, emotional problems and all kinds of malfunction and disease.

As a Certified Emotion Code Practitioner, Dan has been trained to help you discover and release your trapped emotions, which will help your body's natural ability to heal itself, often resulting in a reversal of the disease process and a disappearance of emotional and physical ailments. The Emotion Code has been able to help all kinds of difficulties. The Emotion Code is non-invasive, totally safe, and requires very little time and effort on your part.

How Does it Work?

The subconscious mind knows just what you need to be happy and healthy! The Emotion Code combines 3 main elements:

1. Specific questioning and muscle testing (kinesiology) to find information about trapped emotions from the subconscious,
2. The modern technology of therapeutic magnets
3. The ancient principles of energy meridians in Chinese Medicine.

First, the trapped emotion is identified. Then magnet is used as a carrier for the practitioner's intention to release the emotion. The trapped emotion is instantly released, never to return.

What Can I Expect?

Most people say The Emotion Code helps them feel lighter and more free, but we frequently see the disappearance of major health and emotional issues too! Your results will depend on how many trapped emotions you have and how quickly your body responds after they are removed. Releasing trapped emotions can help restore balance to your body, enhancing your body's natural healing ability. This means you will be better able to recover gently from your ailments and gain a stronger immune system too.
